“There are not two distinct crises, one environmental and the other social, but a single, complex socio-environmental crisis.” This is what Pope Francis reminds us in Laudato Si’ and what we witness every day at Secours Catholique, both in France and internationally. Our strategies for advocacy and action are intended to respond to this dual emergency and set the course for building a fairer and more fraternal world. We are living it, in no small measure, through our two flagship programmes for 2022. The Together, Live Well, Eat Well programme aims to guarantee decent access to sustainable and good quality food for all. And the one that we are conducting with our partners in 18 countries, through a long-term partnership agreement with the Agence Française de Développement (AFD), with a view to defining and implementing our vision of a sustainable ecological transition. Two ambitious programmes that complement each other, based on a local-global approach to which we committed in 2021.

During two years of health crisis, the poorest households have become more impoverished, despite ad hoc state assistance. This is borne out by our annual Statistical Report on poverty, where we track the changes in living standard of the people we support, after deducting necessary expenditure such as energy and rent. Innovative and ambitious policies are needed to lift people out of long-term poverty.

It also takes people to carry out our missions, and the trust, that our teams and volunteers know so well how to cultivate in a spirit of fraternity with people in vulnerable situations, is the hallmark of Secours Catholique and the driving force behind its work. It is also what makes our advocacy approach so special, when we invite politicians to meet the people we support, so that – like us – they can put faces to the figures for unemployment, immigration, poor housing, poverty…

Last but not least we need funding, and the immense generosity shown in 2022, both for the victims of the crisis in Ukraine and for our usual projects, has once again enabled us to rise to the challenges of building a world that is just and fraternal. Huge thanks go to our loyal supporters, but also to the many donors who have joined us this year to rise to these challenges.

**IN OUR MISSION**

- In France, 1,027,500 people were supported in 2,400 centres.
- Internationally, 415 projects were carried out in 2022, in 52 countries or regions, in association with the Caritas Internationalis network (162 Caritas groups). In the course of a year, almost 3.2 million people benefitted from international aid from Secours Catholique – Caritas France.
The socio-economic model of Secours Catholique – Caritas France is underpinned by the commitment of 59,700 volunteers. The estimated value of €337M is primarily made up of voluntary work (valued at €181M) and financial resources (€156M, taking into account a €5M deficit, including €121M or 78% from public donations).

Value of volunteer involvement: in 2022, 59,700 volunteers dedicated an average of 25 days to Secours Catholique activities. Based on the hourly minimum wage ‘SMIC’ and, depending on levels of commitment, up to twice the ‘SMIC’ for volunteers in positions of responsibility, this donated time is valued at €178M. On top of this amount are donation of skills (€2M), support in kind received, holiday vouchers received for families supported and goods made available (€1M), which make up the total voluntary contributions in kind (€181M).

Public giving also enables Secours Catholique – Caritas France to operate. By mobilising donors, especially at the end of the year, we managed to collect €74M in donations to finance our actions. Including bequests, donations and life insurance worth €41M and €3M in other donations, public giving, excluding use of pre-existing funds (€3M), amounted to €118M. Income not linked to public giving amounts to €15M to which can be added government subsidies (€13M), funds rolled over from previous years (€3M) and reversal of provisions (€2M).
Secours Catholique carries out community actions to fight poverty and exclusion and involves public institutions to raise the profile of its activities and to promote social justice. It carries out its mission in France through 3,500 local teams of volunteers who have supported 1,027,500 people, and internationally through 415 projects supporting 3.2 million people.

Employee costs not directly attributable to these jobs have been divided on the basis of predetermined formulae according to the main direction of the project.

**INCOME FROM PUBLIC GIVING CARRIED FORWARD**

Income from public giving carried forward was estimated at €28M on 31 December 2022. This allows the organisation to continue its mission and operations, to commit to and develop new projects and to respond to emergency situations. Income from public giving carried forward includes:

- Available equity which has been agreed by the organisation in accordance with statutory provisions. Funds were retained and placed in the ‘Working capital reserve’ and the ‘Reserve fund’ ensuring the continuity of operations.
- The net book value of all fixed assets. On the basis of the organisation’s financial structure which combines income from public giving or not, operating and investment ratios have been established to highlight the share of public giving included in these items.

**SUMMARY BALANCE SHEET AT 31 DECEMBER 2022**

Net fixed assets (€105M) were essentially made up of property assets and various items used to support people or operations (€60M), assets bequeathed for disposal (€30M) and financial investments (€15M).
